

# ACCESS CONTROL SYSTEMS

**SUPERIOR**  
GROUP

[www.superiorgroup.ie](http://www.superiorgroup.ie)

## What is Access Control:

An access control system allows or restricts access to a building, a room or another designated area. It is an electronically powered form of physical security that manages who has access to a location at a particular time.

## Who uses Access Control:

- Healthcare
- Government
- Enterprise
- Education
- Small and Medium Sized Businesses

## Benefits of Access Control:

- Increase ease of access for Employees
- Save money and energy
- Keep track of who comes and goes
- Protect against unwanted visitors
- Give employees the freedom to work when they need to
- Prevent against data breaches
- Create a safe work environment
- Reduce theft and accidents
- Provide access to multiple buildings and locations
- Comply with Industry regulations or security standards

Access Control is available from a Single stand alone door to multiple doors with varied access levels. Access can be controlled via Fob or Card and the Access Card can incorporate the Staff ID.
