

AUTOMATED GATES AND BARRIERS

www.superiorgroup.ie

Automated Gates:

The main benefit of Electric Gates is **Security**. The **Simple and Convenient** way of keeping your property secure.

Automated gates provide added security to your property by keeping unwanted trespassers off your property. With manual gates you have to get out every time to open and close them whereas with Electric Gates this can be controlled by Remote, your phone or from inside your home... Simple and Convenient.

Types of Automation:

- Underground
- Linear Arm
- Articulated Arm
- Sliding

Regardless of setup we have a solution for you

Barriers:

Again, the main benefit of a Barrier system is **Security**. You get to control access to your property.

Simple, Convenient and Fast way of controlling access.

Uses:

- Car Parks
- Schools
- Factories
- Industries

For more information on Automated Gates or Barriers and how they can be used on your property contact Superior Group and we will design and install a solution for you.
